SSLC - 71.8%

## Skills

---

- C
- Python
- Java
- HTML
- CSS
- JavaScript

## Projects

---

- **Website For Trading Agriculture Products**  
Website For Trading Agriculture Products -  
Built using HTML, CSS and Javascript and gained hands on experience in the field. A web-based platform that connects farmers directly with consumers to ensure fair pricing and reduce middlemen. The system supports multiple Indian languages, offers real-time market rates, secure online payments, and user-friendly interfaces. It promotes transparent trading, reduces black marketing, and helps manage agricultural data efficiently.  
  
Tools used:  
HTML  
CSS  
JavaScript  
PHP

## Soft Skills
